Acids and alkalis

key words

Use the key words at the bottom of the sheet to draw a concept map to show what you have learned about acids and alkalis. You might need to use some of the words more than once.

You could also include some of the examples shown below.

You could start your concept map like this:

Key words

universal indicator	litmus
pH	neutralise
strong	weak

Examples

water	lemon juice
soap	pickled onions
indigestion powder	toothpaste
bleach	vinegar
fizzy drinks	oven cleaner
